STEALTH INTRODUCES 3.2GHZ PENTIUM-4 COMPUTER THAT FITS IN THE PALM OF YOUR HAND

Toronto ~ March 2004 – Stealth Computer Corporation a leading ISO 9001 manufacturer of industrial rugged computers and peripherals have continued their tradition of providing powerful PC based solutions for space-confined applications. The LPC-401X is an Intel Pentium-4 based small form computer system that is part of Stealth's growing family of LittlePC's. Housed in a rugged extruded aluminum enclosure this powerful & versatile machine runs a screaming 3.2GHz Processor and yet it can fit into the palm of your hand. The LPC-401 measures out at only 10" x 5.8" x 2.8" (about the size of a hard cover novel) and offers features that have only been available in traditional bulky desktop PC's. According to Stealth's President & CEO, Ed Boutilier, "We believe we have the most powerful Small Form PC available today" Boutilier says "we are experiencing an early trend where SFF (Small Form Factor) PC based systems will eventually dominate the marketplace".

The feature rich LPC-401X is integrated with Intel's Extreme Graphics 2 Chip providing high performance PC graphics including selectable 16 x 9 aspect ratios for high definition TFT LCD's and Plasma monitor applications. Each and every unit is shipped with on-board LAN, USB-2.0, Firewire, Audio in/out and processors ranging from the Intel P4 2.0GHz up to the 3.2GHz, (800MHz FSB). Included as a standard is a slim CD-ROM with optional DVD and CD/RW drives available. The LPC-401X has unprecedented storage capability in such a small machine by offering up to 200GB of drive space. Systems are compatible with WIN2000/XP, Linux etc and can be custom configured to meet the exact needs of the end user.

The LittlePC products serve a demanding market where powerful solutions are being deployed in space-challenged applications around the world. Stealth's LittlePC's are ideal for deploying in applications such as Digital Signs, Kiosks, Embedded Control, Thin-Clients, POS & Human/Machine Interface applications.

Founded in 1990 Stealth Computer Corporation is quietly evolving as a leading provider of specialized Computers and Peripherals. The company is ISO 9001 registered with its headquarters near Toronto. Stealth continually develops innovative products designed to meet the exact needs of their clients. For over a decade Stealth products have been used in industrial, commercial, scientific, Government and military applications. Stealth Computer Corporation's impressive customer base includes Fortune 500 companies, Military installations and Governments worldwide.
