Stealth Computer Corporation is Awarded Product of the Year for the TuffTouch Rugged LCD Monitor Product

Toronto ~ February 2007 – [Stealth Computer Corporation](http://www.stealthcomputer.com) announced that readers of *Plant Engineering Magazine* have voted the [TuffTouch LCD Monitor](#) a winner in the 2006 Plant Engineering Product of the Year Awards competition. The 19th annual competition recognizes major new products across 15 categories, including Control Equipment, Electrical Power, and Instruments etc. A panel of plant engineers screens initial entries and then readers are invited to vote on their choices for the best overall products. Award winners will be honored at the Plant Engineering [Manufacturing Summit](#) in Chicago on April 02, 2007

Stealth's [TuffTouch metal encapsulated LCD](#) won the award in the Control Equipment category. TuffTouch is an industrial rugged and versatile Touch Screen LCD Monitor designed to stand-up to the rigors of the plant floor environments.

"Winning Plant Engineering's product of the year award is a great honor as each and every winner is voted on by the readership of the magazine," said Ed Boutilier, President & CEO of Stealth Computer Corporation. "This award is an important accomplishment of which we are extremely proud."
