STEALTH SPACE SAVING ULTRA-THIN RACK MONITOR ITS AN OPEN & SHUT CASE!

Toronto – November 21, 2001 - The Stealth FlatRack is a ultra-thin LCD monitor with built-in keyboard and track-pad mouse. When at its resting position the monitor measures only 1.5 inches in height or 1U. In its full upright position the 15.1" diagonal TFT LCD delivers the same viewing area as a 17" CRT monitor. The Stealth FlatRack monitor is capable of saving 18-24" of vertical space in a standard rack cabinet. An ideal choice for applications where rack space is at a premium. The LCD is a 230 nit 15" Active Matrix TFT offering a wide viewing angle of 160 degrees. Constructed of heavy duty steel with ball bearing slide rails the FlatRack has a built-in 110/220VAC power supply and is available with optional DC Power inputs.

Stealth Computer Corporation manufactures specialized high performance industrial grade Computer systems & Peripherals that are in demand by Scientific, Telecommunications, Industrial/Commercial, and Control markets. The company is privately held with headquarters in Toronto, Canada.
