Stealth Computer Ships Industry's First 24" Widescreen Rugged LCD Monitor with Touchscreen Interface

Toronto, Canada ~ May, 2008 Stealth Computer a division of Stealth.Com Inc., a market leader in the industrial computer and peripherals market has released a new [Model:SV-2400](#) Industrial Grade, Panel Mount LCD monitor. The 24" all steel enclosed touch screen LCD Monitor is built to withstand the demanding effects of harsh environments typically encountered in industrial plant floor and Human Machine Interface applications. The NEMA 4/IP56 LCD front-panel withstands water, dust and dirt intrusion and performs well beyond ordinary commercially available monitors. The high precision 24" widescreen display is capable of running resolutions up to its native mode WUXGA of 1920 x 1200 pixels with both analog and digital input sources. The SV-2400 features a 16:10 aspect ratio, low power consumption, superior image quality with 250 nits of brightness, 160 degree viewing angles and a contrast ratio of 1000:1

The SV-2400 LCD monitors are available with an anti-reflective, tempered glass protective overlay or an optional capacitive touchscreen sensor. All Stealth monitors are plug & play capable requiring no video drivers or special interface cards. The Stealth LCD's are ideal choices for applications such as, Human-Machine Interface, Factory Automation, Process Control, Kiosks, Outdoor Digital Signs or any demanding applications where vital information must be displayed.

Stealth Introduces a 24" Widescreen Industrial Rugged LCD Monitor with Touchscreen Interface
