PRODUCT DESCRIPTION

The APC Smart-UPS model SMT1500NC provides intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other network devices.

The APC by Schneider Electric Smart-UPS is a high performance uninterruptible power supply (UPS). The UPS provides protection for electronic equipment from utility power blackouts, brownouts, sags, and surges, small utility power fluctuations and large disturbances. The UPS also provides battery backup power for connected equipment until utility power returns to safe levels or the batteries are fully discharged.

Perfect companion to Stealth's LittlePCs

The APC Smart-UPS SMT1500NC is a versatile & robust choice for our line-up of Stealth LittlePC / Mini PC products. This high performance APC power backup is an available option for all LittlePC models and can also be purchased separately.
