STEALTH INTRODUCES THE FIRST 19″ INDUSTRIAL GRADE LCD TOUCHSCREEN MONITOR WITH NEMA 4 RATING

Toronto ~ June 2002 – Stealth has introduced the industries first 19" Industrial Grade NEMA 4 Touch Screen LCD Monitor built to withstand the demanding environments of the shop floor. The StealthVU model SV1900 is an ideal choice for Human-Machine Interface and demanding applications where vital information must be displayed in a minimal amount of space. The SV-1900 series monitor provides the same viewing area of a 21" CRT without the bulky size, heat and power draw. StealthVU monitors are easily installed into control panels, operator stations and consoles. With a viewing angle of 170 degrees and a contrast ratio of 500:1 the StealthVU easily outperforms any large-scale monitors in a cost vs. performance comparison.

Stealth Computer Corporation is an ISO9001 Canadian owned and operated company with its headquarters in Woodbridge Ontario.
