PRODUCT DESCRIPTION

The Stealth SR-4570 series rack server has a built-in 7 inch widescreen LCD ideal for performance or application monitoring. The chassis design accommodates high performance processors from both Intel and AMD along with removable SATA hard drives. Another outstanding feature delivered by Stealth is the full integrated slide-out keyboard and trackball. When not used the keyboard and pointing device slides neatly under the rack chassis saving valuable space and without the time consuming need to search for keyboard and mouse cables.

The SR-4570 is highly configurable to meet any of your needs. Available with many Motherboard options, Slot configurations, CPU Support and Memory support.
