## PRODUCT DESCRIPTION

The Stealth Computer model SK-108-TP-MEM-USB is an excellent solution for space saving needs. An ultra-thin and compact unit, it measures only 1.06 inches (27mm) in height, while featuring an integrated touchpad for fast and accurate cursor position, eliminating the need for an external mouse.

The SK-108-TP-MEM-USB  features a FN + LOCK combination key to disable the entire keyboard for easy cleaning. The keyboard surface is flush with anti-microbial functionalities, the fonts printed on the film underneath will never fade, and is made of durable, scratch-proof polyester to withstand to most chemicals and liquids under the harshest environments.

The keyboard lacks the crevices found between the keys of a regular keyboard, which is protected against dust, dirt, grease and corrosive liquids to NEMA 4X / IP68, which means it can withstand directed hose water, disinfectants, environmental contaminants and heavy industrial use. Ideal for use in Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments and warehouses.

Stealth's industrial keyboards and pointing devices are also available in stainless steel, desktop, panel mount, rack mount, open-frame, kiosk/public access and with illuminated / backlit features.

## ADDITIONAL INFORMATION
