PRODUCT DESCRIPTION

Manage your Rack Space with a Slim 1U All-In-One LCD/Keyboard with 8, 16 or 32 Built-in Cat6 KVM Ports with Standard RJ45 Interface Connection

The Stealth 8, 16 and 32 Port KVM series FlatRacks present an uncomplicated way for you to manage and expand your data center efficiently. PS/2 or USB combined with VGA or DVI connections are simply plugged into a small dongle that interfaces to a CAT5/CAT6 (RJ45 Connectors) cable. This allows each installation to a host system (Computer or Server) a maximum distance of up to 120 feet or 40 meters.

Stealth's LCD products have been designed for easy installation into standard 19" rack cabinets. The high strength slide-rails have lockable fixed positions to prevent movement when typing. In its resting position the Stealth LCD monitor measure only 1.75 inches or 1U in height providing a significant cost savings by using less rack space.

Stealth's ultra-thin LCD monitors come equipped with built-in keyboard and a touch pad mouse connecting to both USB and PS/2 interfaces. Standard units ship with a built-in 110/220VAC power supply. Optional DC Power inputs of +12, +24 and -48VDC are also available. Other FlatRack models are available with a range of LCD sizes, Widescreen, and various video inputs.

ADDITIONAL INFORMATION
